

S. KARTHIKEYAN

Java Full Stack Developer

+91 9042588533 | skskarthikeyan7@gmail.com | github.com/karthikeyan321 | linkedin.com/in/karthikeyan-s-skarthikeyan | Karaikudi, Tamil Nadu

PROFESSIONAL SUMMARY

Motivated and detail-oriented BCA graduate and Certified Full Stack Java Developer with hands-on experience in building Java-based web applications. Proficient in Spring Boot, Hibernate, REST API development, and frontend technologies including HTML5, CSS3, and JavaScript. Completed a Full Stack Java Developer internship at Akims Technologies Pvt Ltd with practical exposure to software development lifecycle, database management, and team collaboration. Eager to contribute technical skills and a strong problem-solving mindset to an entry-level Full Stack Developer role.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, Python (Basic), SQL

Frontend Technologies: HTML5, CSS3, JavaScript, Responsive Web Design, Bootstrap

Backend Technologies: Java, Spring Boot, Hibernate / JPA, REST APIs

Database Technologies: MySQL, PostgreSQL (Basic)

Tools & Platforms: Git, GitHub, VS Code, Eclipse IDE

Core Concepts: Object-Oriented Programming (OOP), DBMS, MVC Architecture, SDLC

INTERNSHIP EXPERIENCE

Java Full Stack Developer Intern

Akims Technologies Pvt Ltd

Tamil Nadu, India · Internship

- Developed and maintained Java-based web application modules using Spring Boot and RESTful API design principles, improving application modularity
- Collaborated on responsive frontend development using HTML5, CSS3, and JavaScript to build and enhance user-facing features
- Designed and optimized MySQL database schemas; wrote efficient SQL queries for data storage, retrieval, and reporting
- Participated in all phases of the software development lifecycle — from requirement analysis and design through testing and deployment
- Applied Git/GitHub for version control and collaborative development following professional coding standards
- Debugged and resolved backend and frontend issues, contributing to improved application stability and performance

PROJECTS

Email Spam Classifier

Java-Based Web Application

Technologies: Java, HTML5, CSS3, JavaScript

- Designed and built a full stack Java web application to classify and filter spam emails from legitimate messages using text pattern analysis
- Implemented backend classification logic in Java with modular, object-oriented design following MVC architecture
- Developed a dynamic and interactive frontend UI using HTML5, CSS3, and JavaScript for real-time email analysis
- Integrated backend API endpoints to process and return classification results to the frontend seamlessly
- Strengthened skills in Java programming, REST API integration, frontend-backend communication, and end-to-end problem solving

EDUCATION

Bachelor of Computer Applications (BCA)

2023 – 2026

Vidhyaa Giri College of Arts and Science (Alagappa University Affiliated) · Karaikudi, Tamil Nadu

CERTIFICATIONS
